OPERATIVE QUADRO

For a Great Office Experience.

STRAIGHT, SOLID, STABLE

Greenforest's quadro desk and table system, add value through elegant simplicity, flexibility and functionality. Whether as easy accessible solution for the newcomer or as a complete extendable system for the professional – quadro makes furnishing simple.

Simply smart.

Absolute stability.

The leg is available in ring-shape, open with a 40-mm cross section. With stability that puts it at the top of its category, thanks to the metal rail under the desk top, to which the load-bearing bases or legs are attached. No wobble, and all the quality you're looking for.

MORE SURFACE, MORE SPACE, MORE COMMUNICATION

Interlinking elements make it possible to quickly combine several workstations to form a large bench – with optimum legroom, as tables that are linked together are fitted with a supporting leg that is offset from the front edge. This results in a continuous work surface with a lot of freedom of movement and a communicative atmosphere. Modesty and privacy panels or organising accessories can be fitted easily and provide space for personal needs. Thanks to the unique stability of the quadro table tops, connecting components and cross-rails, it is possible to create comfortable, multiple and team workstations on very small work surfaces.

LESS IS MORE...

KEEPING IT SIMPLE TAKES TIME & EFFORT.

CREATE YOUR
SPACES TO SUIT
YOUR NEEDS.

Quadro can match any aesthetic. With clean, simple lines and thoughtful design touches, Quadro is a refined and refreshing solution. It brings the workstation back to basics, offering a simple and sleek solution that is both best-in-class and best-in-price. A straightforward statement of line and clean design details make it the perfect addition to any home office or workplace.

DYNAMIC MEETINGS.

With the rectangular meeting tables from the Quadro collection, it is possible to create any desired solution, reaching considerable sizes, and always with the utmost versatility.

You can configure the worktop with power sockets or cable covers and top access to the optional cable tray that is fixed to the monorail. The tables are set at a fixed height of 74cm.

**MORE SURFACE,
MORE COMMUNICATION**

1.

Cable tray.

With a cable tray and additional accessories - a pleasant working atmosphere is achieved. As a bonus, the workplace becomes even easier to clean. The tray is designed installation under the table. Very simple to install with plenty of room for power strips. The length may also be cut for perfect fit. Prepared for ground connection.

2.

The perfect system for personal privacy: **easy screen** also aids the concentration when working at bench workstations.

3.

With our **power sockets**, you are free to decide how to configure because the power strip can be quickly replaced without any tools. Integrated functionality and flexibility not just for today, but also for the developments of tomorrow.

4.

We have also **complementary products** that gives you the solutions to keep your workspace in order. Both above and under the desk.
